SKILLS & TECHNOLOGIES

Languages

Python, SQL, Java, TypeScript

Data & Analytics

PostgreSQL, data pipelines, BI-style dashboards

Research Tooling

NumPy, structured data wrangling

Backend

Spring Boot, REST APIs

DevOps & Tooling

Docker, Git, CI-driven automated testing

EDUCATION

M.Sc. Computer Science (Researcher)

Ben-Gurion University of the Negev · 2026
– Present

Current GPA 95 · Computer-vision research with the Faculty of Engineering.

B.Sc. Computer Science

Ben-Gurion University of the Negev · 2022
– 2025

Final GPA 84.2 · Active swimmer, BGU ASA competitive swim team.

Coursework: Databases, Probability & Statistics, Computational Models, Numerical Analysis

ACTIVITIES

Teaching Assistant — BGU · 2026 – Present

Supervises practicum coursework and grades/examines student papers.

Individual/Group Swimming Instructor — Wingate Institute · 2014 – Present

Teaches fundamentals and advanced technique to swimmers of all ages.

Volunteer Math & CS Tutor — BGU · 2026 – Present

Tutors first-year students in math and CS, focused on reservist students returning to their studies.

LANGUAGES

Hebrew — Native
English — Fluent

PROFILE

Data analyst with a full-stack software engineering background (B.Sc. Computer Science, Ben-Gurion University of the Negev; M.Sc. in progress). Turns messy real-world data into clean, decision-ready insight — parsing pipelines, relational modeling, and BI-style dashboards — and translates numbers into a story stakeholders can act on. Currently building SwimEdge's analytics pipeline for competitive swimming, applying that lens to years of competitive-swimming and coaching experience.

FEATURED PROJECT

SwimEdge — Full-Stack Competitive Swimming Platform

Founder & Sole Engineer · 2025 – Present · [GitHub](#)

- Built a custom data pipeline converting official Israeli Swimming Association PDF/Excel results into clean, queryable relational data — handling multi-column layouts that break naive text extraction.
- Designed performance-analytics dashboards (BI-style views: personal bests, trends, comparisons), profiling and optimizing the pipeline for both runtime speed and memory footprint at scale.
- Opened direct discussions with the Israel Swimming Association and engaged Israel's national sports administration (Ministry of Culture and Sport) on the opportunity for federation-wide data modernization.

SwimData-IL (BGU Data Management Course Project)

Independent of SwimEdge · 2026

- Extracted and structured Israeli Swimming Association competition results from PDF documents into a clean, queryable dataset.
- Applied data modeling and validation techniques to reconcile inconsistent source formatting across meets.

MILITARY SERVICE

Combat Commander, Paratrooper Brigade, IDF

2016 – 2019

- Trained and mentored newly recruited soldiers; led operations and managed company-level logistics.

Reservist, Paratrooper Brigade, IDF

2019 – Present

- Lead frontline teams under pressure, maintaining calm and accountability.
