SKILLS & TECHNOLOGIES

Product

Roadmapping, stakeholder engagement, user discovery

Languages

Java, Python, TypeScript

Full-Stack Foundations

Spring Boot, React, PostgreSQL

DevOps & Tooling

Docker, Git, CI-driven testing

EDUCATION

M.Sc. Computer Science (Researcher)

Ben-Gurion University of the Negev · 2026
– Present

Current GPA 95 · Computer-vision research with the Faculty of Engineering.

B.Sc. Computer Science

Ben-Gurion University of the Negev · 2022
– 2025

Final GPA 84.2 · Active swimmer, BGU ASA competitive swim team.

ACTIVITIES

Teaching Assistant — BGU · 2026 – Present

Supervises practicum coursework and grades/examines student papers.

Individual/Group Swimming Instructor — Wingate Institute · 2014 – Present

Teaches fundamentals and advanced technique to swimmers of all ages.

Volunteer Math & CS Tutor — BGU · 2026 – Present

Tutors first-year students in math and CS, focused on reservist students returning to their studies.

LANGUAGES

Hebrew — Native
English — Fluent

PROFILE

Product-minded software engineer with a Computer Science B.Sc. from Ben-Gurion University of the Negev (M.Sc. in progress), moving into product management. A proven communicator and people-leader — commanded soldiers, coaches swimmers, and now pitches SwimEdge directly to federation leadership — comfortable rallying a room around a plan and driving it to execution. Currently the founder and product owner of SwimEdge, a full-stack analytics platform for competitive swimming.

FEATURED PROJECT

SwimEdge — Full-Stack Competitive Swimming Platform

Founder & Product Owner · 2025 – Present · [GitHub](#)

- Identified a real gap as a competitive swimmer and independently scoped, built, and shipped SwimEdge — a full-stack analytics platform (modular, service-oriented Spring Boot backend; React frontend) for swimmer performance tracking — owning the roadmap end to end.
- Prioritized features against a tiered club-rollout strategy and made scope/architecture trade-offs — including runtime and memory efficiency targets — to ship a production-quality platform solo.
- Translated domain expertise as a competitive swimmer and coach into product decisions, balancing technical feasibility with what clubs, coaches, and officials actually need on the pool deck.
- Pitched SwimEdge directly to the Israel Swimming Association and Israel's national sports administration (Ministry of Culture and Sport), validating demand and shaping a rollout strategy toward national, cross-federation adoption.

MILITARY SERVICE

Combat Commander, Paratrooper Brigade, IDF

2016 – 2019

- Trained and mentored newly recruited soldiers; led operations and managed company-level logistics.

Reservist, Paratrooper Brigade, IDF

2019 – Present

- Lead frontline teams under pressure, maintaining calm and accountability.
